

Marc Saint-Jour, M.D.
1878 Browning street
Baldwin NY 11510
Mobile: 347-249-9714
Email: marcsaintjour@gmail.com

Educational Background:

State University of New York Downstate Medical Center College of Medicine
Doctor of Medicine, May 2011

City University of New York at Brooklyn College
Bachelor of Science in Biology, Cum Laude, May 2006
Honors: Dean's list 2002-2006

Professional Experience:

University Hospital of Brooklyn 7/2011-6/2014
Internal Medicine Resident

As a resident rotating in three of the largest teaching hospitals in Brooklyn, NY and Memorial Sloan Kettering in New York, NY, responsibilities included admitting and managing critically ill patients in the Medical Intensive Care Unit, Emergency Room, and on the Medical Floors, providing continuity of care in outpatient clinics, function as clinical instructors to teach medical students and junior house staff, and working with other specialties and ancillary staff to provide maximum care to patients.

Medical Licensure, Certifications & procedures:

American Board of Internal Medicine (ABIM) certification eligible
State Licensure - South Carolina Medical Board
Advanced Cardiac Life Support (ACLS)
Basic Life Support (BLS)
Central Venous Catheter Placement
Arterial Cannulation

Research Experience:

NIH's Systolic Blood Pressure Intervention Trial (SPRINT), Kings County Hospital Site, 2012

Research assistant, Maryn Ann Banerji, MD

SPRINT is a randomized, multi-center clinical trial testing the effects of intensive lowering of systolic blood pressure (SBP) on preventing cardiovascular disease (CVD), I contributed in patient recruitment, data collection and analysis of Kings county site's data.

Oscillation product on 12-lead ECG and cardiac tamponade, SUNY Downstate Hospital, 2012-2013

Research assistant, John T. Kassotis, MD

A study that aims to demonstrate that oscillation product (OP) on a standard 12-lead ECG can improve diagnosis of cardiac tamponade, I contributed in data collection, analysis, poster presentation and manuscripts of the clinical study design

Publication:

Oscillation product on a 12-Lead electrocardiogram can improve diagnosis of cardiac tamponade. EHRA Europace 2013. 2013 Jun; 15(suppl 2): 227-269.

S. Kumar, M. Saint-Jour, N. Warriar, M. Milcevic, A. Innasimuthu, A. Budzikowski, J. Kassotis.
