Objective

Leadership position where over seven years of informatics experience can help an organization transform its capture, integration, and delivery of clinical data, information, and knowledge.

Professional Experience

NY Presbyterian Medical Center, New York, NY

Director of Otolaryngology, Head and Neck Surgery, Director of Medical Informatics for the Department of Otolaryngology, the Allen Hospital
- Worked with the ALLSCRIPTS and Eclipsys Sunrise Teams on implementing their informatics enterprise systems for the Faculty Practice as well as the inpatient system.

Director of Informatics for the Adult ENT Clinic (2008 to 2013)
- Direct and manage the product development, professional services, and operating activities of the ambulatory and hospital clinical information systems and services.
- Provide expert advice and strategies to senior executives of the hospitals regarding IT strategic planning, clinical systems implementation, systems integration, culture change, and physician adoption.
- Provide expert advice to ambulatory and hospital clients regarding benefits analysis and assessment, clinical decision support, evidence-based practice, patient safety, quality improvement, and workflow optimization.
- Instituted Quality Outcomes Measures for the Ambulatory Network's Accountable Care Organization
- Collaborated with billing, compliance, operations, and risk management directors to create new policies and procedures for an evolving EMR environment.
- Supervise residents in health and medical informatics projects using Sunrise Eclipsys.
- Served on committees for patient satisfaction, and quality & outcomes.

Faculty Practice, Columbia University College of Physicians and Surgeons, New York, NY

Assistant Professor, Department of Otolaryngology, Head and Neck Surgery (1992 to 2013)
Director of Informatics for the Department
- Collaborate with other faculty on projects and proposals related to clinical systems adoption, benefits, effectiveness, ergonomics, evaluation, governance, metrics, and unintended consequences.
- Assisted in the clinical content development and database terminology committees of physicians as part of the enterprise-wide ambulatory EMR deployment.

- Construction of the specialty specific electronic health record using ALLSCRIPTS enterprise system.
- Advise medical students and residents on career and curriculum planning.
- Precept and teach medical students and residents in clinic and on hospital rounds.

Private Practice, Tri-County ENT, LLC, Mahwah, NJ

Physician Owner of Private Otolaryngology, Head and Neck Surgery Practice (2000-present (Over 8000 patients in my database.)

EMR Consultant

Outside Consultant to EMR Vendors, especially for Meaningful Use and HL7 Compatibility for Healthcare Interoperability
- **DrsNotes®EMR** Deployed and successfully beta tested electronic medical record in my private office in 2000-2013. Coordinated EMR configuration and customization for Otolaryngology. Presently looking at Angel Investment groups to bring this vendor current with funding for EMR support to its clients for another 2-4 years.
- **Carecloud®EMR** deployed clinical documentation with totally encoded template additions, and CDA mapping for all the past history, family and social history (including surgical).
- **CureMD ® EMR** I am guiding the the clinical content development and database terminology for their EMR system.
- **MedENT ® EMR** Deployed nationally recognized Outcomes Measures for that were Otolaryngology specific. They are in a flow sheet format allowing queries on both the total end scores, as well as the specific measures over a timeline of interventions.
- **Doctations® EMR**. Led the process implementation, Database management, physician billing, and quality assurance for this vendor.
- **Simplicity® EMR.** Advisor for ENT specialty specific policy and program expertise, Outcomes Questionnaires for quality assurance, modification of the database, and Meaningful Use updates.

ICU and OR design Consultant for NY Presbyterian Medical Center, New York, NY

- Led the engineering and facility development team at New York Presbyterian Medical Center to implement **Antimicrobial Corning Glass** into their ICU and OR structures for monitor displays that could be flat and easily cleaned.
- Coordinated **Corning** and **Medtronic** project to convert CT scan algorithms into holograms that can be superimposed on a patient for 3D guidance during surgery
- Work with **Draper Laboratories** and the Neuro ICU delegates for **IMEDS** (Integrated Medical Environment Decision Support) multivariate analysis of patient data in real time ICU setting.

Committee Membership:

- **Chairwoman, Medical Informatics Committee,** American Academy of Otolaryngology, Head and Neck Surgery
- Ambulatory Care Network IT Group, NY Presbyterian Medical Center
- IT User Group, NY Presbyterian Medical Center
- Joint Directors, Ambulatory Care Committee
- ACO Workgroup, HIMSS
- Joint Committee on New Medical Devices and Medical Informatics, American Academy of Otolaryngology, Head and Neck Surgery

SKILLS

- Meaningful Use
- HIPAA compliance
- International Classification of Diseases (ICD.9CM)
- Current Procedural Technology (CPT)
- Systemized Nomenclature of Medicine, Clinic Terms (SNOMED-CT)
- MEDCIN coding (Medicomp)
- HL7
- XML

- Policy and program development expertise
- Electronic Medical Records development and implementation
- OSHA compliance
- Data management
- Process implementation
- Project management
- Physician billing
- Quality assurance
- Systems based practice
- Coordination of Care

CERTIFICATIONS

- Board Certification in Otolaryngology, Head and Neck Surgery, American Board of Otolaryngology, Head and Neck Surgery, 1993
- Fellow, Academy of Otolaryngology, Head and Neck Surgery, 1993
- Fellow, American College of Surgeons, 1996
- Member American Medical Informatics Association (AMIA)
- Member Health Management Systems Society (HIMSS)
- Member American Health Information Management Association (AHIMA)
- Member Association of Medical Directors of Informatics Systems (AMDIS)
- Certification Clinician/Practitioner Consultant Health Information Technology Professional (HIT Pro)
- Membership HL7
- Certification in Health Information Technology, Columbia University, March 2013
- Certification in Financial Accounting, Wharton Business School, University of Pennsylvania 2013
- Certification Data Analysis and Statistical Inference, Duke University, March 2014
- HL7 Fundamentals Certification, HL7, Ann Arbor, Michigan, June 2014

EDUCATION

1992   **Residency Otolaryngology, Head and Neck Surgery**
          Columbia University, College of Physicians and Surgeons

1988   **Residency Internal Medicine**
          Columbia University, Harlem Hospital

1984   **Fellowship, Otolaryngology, Head and Neck Surgery**
          St Luke's/Roosevelt Hospital

1983   **Residency, General Surgery**
          Columbia University, Harlem Hospital

1981   **M.D.**: **Medicine**
          Far Eastern University, Dr. Nicanor Reyes School of Medicine

1975   **Bachelor of Arts**: **Biology**
          Boston University
